A wonderfully wide field.

Listeners submitted an average of **8.6 tracks**. 60 supplied a full Top 10, while 149 supplied at least eight choices.

507 tracks were unique to a single approved list — 87.1% of the complete catalogue. That long tail shows how much musical variety sits beyond the broadcast Top 50.

The following pages contain artist and track names only. Draft and excluded entries, listener names, contact details and all other identifying information have been omitted.
